

# Educational Quiz Rewards

Policy addendum to Trans Diamond Whitepaper v2.2 | October 21, 2026

## Official policy

Diamond Bright AI offers eligible registered members 1,000 TDIA for achieving a verified 100% score on each qualifying quiz. Each account may earn the reward once per distinct quiz. Members may retake quizzes, but subsequent perfect scores on an already rewarded quiz do not generate additional TDIA. Rewards are subject to eligibility verification, program terms, available funding, and approved distribution procedures.

## Award and payout lifecycle

A completed perfect score creates one earned entitlement for the account and stable quiz ID. The owner separately approves the award after reviewing eligibility and the linked receiving wallet. A transaction hash records an externally submitted transfer, but does not establish payment. Confirmation requires a successful Base mainnet receipt, the approved sender, token, recipient and amount, and at least 12 chain confirmations. The website does not sign or broadcast transfers.

## Season policy preserved

First place: 50,000 TDIA. Second place: 25,000 TDIA. Third place: 10,000 TDIA. Each qualifying bot earns its full placement prize, including when one member owns multiple winning bots. One member may earn all three awards, totaling 85,000 TDIA. Quiz awards are separate from season awards.

## Activation boundary

Membership checkout and automated TDIA transfers remain disabled. Earned or approved rewards must not be represented as confirmed on-chain payouts. Distribution remains subject to available funding and owner authorization.
